CV of the researcher

1.PERSONAL DATA

Surname	Pore
Name	Ameya
Date of Birth	11/01/1996
Email	ameya.pore@univr.it

2. ACADEMIC QUALIFICATIONS

2.1. Doctoral degrees

Degree	Ph.D. in Computer Science
Institute	Department of Computer Science, University of Verona, Verona
Country	Italy
Date	10/2019 – 07/2023
Date of defence	27/07/2023
Supervisor	Prof Paolo Fiorini
Project	Deep Reinforcement learning control for robotic manipulation of deformable objects
Details	The project was part of a dual degree MSCA-ITN program. The University of Verona served as a primary host institute where the majority of the research was carried out.

Degree	Ph.D. in Biomedical Engineering
Institute	Research Centre for Biomedical Engineering, Universitat Politècnica de Catalunya (UPC), Barcelona
Country	Spain
Date	10/2019 – 07/2023
Date of defence	27/07/2023
Supervisor	Prof Alicia Casals
Project	Deep Reinforcement learning control for robotic manipulation of deformable objects
Details	The project was part of a dual degree MSCA-ITN program. UPC served as a secondary institute where a part of the research was carried out.

2.2. Master's and bachelor's degree

Degree	BS - MS in Biology + Computer Science
Institute	Indian Institute of Science Education and Research (IISER), Pune
Country	India
Date	08/2014 – 05/2019
Date of defence	04/05/2019
Details	This is an integrated degree (Bachelor's + Master's) awarded by IISER. The course has a duration of 5 years. In the final year, the fellow completed his master's thesis research at the University of Glasgow (Sec. 4.3.2). His bachelor's research was carried out in biology (Sec. 4.3.3).

3. RESEARCH ACTIVITIES

3.1. Doctoral research

Simulator	The fellow developed two realistic simulators with deformable physics in which RL agents were trained: (1) *UnityFlexML*: first modular frameworks based on the Unity game engine, which supports deformable tissue; (2) Colonoscopy simulator with realistic

	mechanical and visual properties. The simulator was evaluated using a user study involving clinicians.
RL	He developed autonomous control methods for flexible robots using Reinforcement Learning (RL) to operate in constrained workspaces. Additionally, he developed constrained-RL approaches and formal verification methods to guarantee safety adherence. Furthermore, he proposed imitation learning approaches for learning manipulation from few imperfect demonstrations.

3.2. Master's research

Institute	School of Computing Science, University of Glasgow, Glasgow
Country	United Kingdom
Date	05/2018 – 04/2019
Supervisor	Dr. Gerardo Aragon Camarasa
Title	Behaviour-based RL for robotic manipulation
Details	
Behaviour-Based RL	The fellow developed a hierarchical RL approach for robotic pick and place tasks. This method could decompose long-time horizon tasks into simpler subtasks and learn them separately. A high-level RL agent then learned to sequence these subtasks to create a complex behaviour. The research outcome showed a drastic reduction in the number of training episodes required compared to state-of-the-art algorithms.

3.3. Bachelor's research

Institute	IISER
Country	India
Date	05/2016 – 04/2018
Supervisor	Prof Sanjeev Galande
Title	Early Embryogenesis
Details	The research aim was to investigate the changes in biophysical properties during tissue regeneration. For that, *Hydra*, which is a freshwater polyp with regeneration capability, was used as a model organism. Body incisions were made and probed using atomic force microscopy to detect stiffness changes during regeneration.

Institute	Mechanobiology Institute, National University of Singapore
Country	Singapore
Date	05/2017 – 09/2017
Supervisor	Dr. Ronen Zaidel Bar
Title	Biophysics of regeneration
Details	This research aimed to understand the importance of cell-cell adhesions during early embryo development. For that, *C-elegans* was used as a model organism to carry out gene mutations, and the phenotype was studied.

4. FELLOWSHIPS

Fellowship name	MSCA-ITN
Awarded by	European Commission
Project Name/code	ATLAS, 813782
Date	10/2019 – 09/2023
Details	MSCA-ITN are joint doctoral training program offered by EU that provide a highly integrated type of international and interdisciplinary doctoral training.

Fellowship name	ERASMUS + ICM
Awarded by	European Commission
Project code	KA 107
Date	05/2018 – 04/2019
Details	Awarded the Erasmus+International Credit Mobility grant to carry out the master's thesis at the University of Glasgow. This fellowship covered the travel, tuition fees and living expenses for the study duration.

Fellowship name	MBI Internship program
Awarded by	National University of Singapore
Date	05/2017 – 09/2017
Details	Awarded the MBI internship fellowship to conduct a research Internship at the National University of Singapore, Singapore, for four months. This fellowship covered the tuition fees and living expenses.

Fellowship name	INSPIRE Fellowship
Awarded by	Department of Science and Technology, Govt. of India
Date	08/2014 – 05/2019
Details	Awarded the fellowship for undergraduate studies. The fellowship provided a monthly stipend along with a travel budget.

5. SKILLS AND SERVICES

Relevant courses	Reinforcement learning, Deep unsupervised learning, Robotics foundations, Surgical robotics, Computer vision, Statistical Analysis, Advanced control theory, Probability theory.
Libraries Used	**Pytorch, OpenAI gymnasium, Stable-baselines3**, tensorflow, OpenCV, Scikit-learn, Numpy, Pandas, matplotlib
Advanced proficiency	**Unity3d, Python, C#, ROS. SOFA,** Da Vinci Resolve, GIMP
Intermediate proficiency	R Studio, Matlab, Blender, Meshlab, LLM Chatbots, Diffusion models
Robotic Platforms Used	Da Vinci Robotic system, STRAS platform, Baxter Robot, Panda Franka Emika robot, Search and rescue robot (ETH Zurich)
Academic services	Frequent reviewer of **RA-L, ICRA, IROS, ICAR, ISMR and IJCARS**
Organisation	Financial organisation committee: ICRA2023

5. ACHIEVEMENTS

Title	Incubation centre
Place	Pune
Significance	Led the team to secure a grant of 1 million USD under the government of India's scheme, NITI aayog, to set up an incubator.
Date	02/2018

Title	Invited by the office of the President of India
Place	New Delhi
Significance	One among the top ten leaders selected across India to talk about entrepreneurship-based education.
Date	02/2018

6. PUBLICATIONS

Table 1: Publications table; C – Conference J – Journal A - Abstract

C1	Corsi*, Davide, Luca Marzari*, Ameya Pore*, Alessandro Farinelli, Alicia Casals, Paolo Fiorini and Diego Dall'Alba (2023).“Constrained reinforcement learning and formal verification for safe colonoscopy navigation.” In *2023 IEEE/RSJ International Conference on Intelligent Robots and Systems (IROS).* *-equal contribution

7. PRESENTATIONS AND EVENT ORGANISATION

Presentation	**Venue**	**Place**	**Date**
Lead Organiser	Workshop at Hamlyn Symposium on Medical Robotics (HSMR): Autonomous Flexible Surgical Robots	London	06/2023
Poster	Reinforcement Learning Summer School	Barcelona	05/2023
Paper	IEEE/RSJ International Conference on Intelligent Robots and Systems (IROS)	Kyoto	10/2022
Paper	Hamlyn Symposium on Medical Robotics (HSMR)	London	06/2022
Paper	Conference on Computer and Robot Assisted Surgery (CRAS)	Naples	04/2022
Paper	IEEE/RSJ International Conference on Intelligent Robots and Systems (IROS)	Virtual (Prague)	10/2021
Paper	International Symposium on Medical Robotics	Virtual (Atlanta)	11/2021
Poster	ETH Robotics Summer School and Symposium	Zurich	07/2021
Paper	IEEE/RSJ International Conference on Intelligent Robots and Systems (IROS)	Virtual (Las Vegas)	10/2020
Paper	International Conference on Robotics and Automation	Virtual (Paris)	06/2020
Best project award	Summer School on Tissue segmentation, modelling and deformation	Virtual (Milan)	07/2020
Runner-up	Hamlyn Winter School, Imperial College London	London	12/2019
Poster	Summer School on Surgical Robotics	Montpellier	09/2019
Lead Organiser	Startup Weekend, Coffee with a startup, Design thinking workshop, rural innovation workshop	Pune	05/2016-05/2018
Invited talk	24hr Chrono Entrepreneurship Challenge	Pune	12/2017

8. TEACHING AND MENTORING

- 2 guest lectures every year since 2021 at the University of Verona in the Artificial intelligence course
- Mentored two bachelor student projects and co-supervised a master's level project (2020-2022), which resulted in a publication in ICAR.

9. LANGUAGES

Native	Marathi, English, Hindi
Additional languages	Italian, assessment: Intermediate, B1 level
	Spanish, assessment: Beginner, A2 level
